

Behaviour Policy Addendum - Covid-19

All pupils must continue to adhere to the principles outlined in the Behaviour Policy.

In addition, pupils must

- respect the revised day to day expectations of year group 'bubbles'
- adhere to the revised rules and expectations for entering and exiting the school site
- cooperate when it is required that their temperature is taken
- stay in their own rooms for registration unless directed otherwise
- only mix with others in their own year group throughout the school day
- only use their designated entrance and exits to the school building
- stay at their own desks unless directed otherwise
- avoid making physical contact with any other person
- not in jest deliberately and unnecessarily perform actions associated with symptoms of Covid-19, for example but not limited to, coughing and/or sneezing
- follow hygiene rules, including washing hands/sanitising when entering and leaving rooms and not using chewing gum
- leave bags in designated areas

To be aware of and follow expected health and hygiene requirements to keep everyone safe pupils must

- inform an adult if they feel they have any Covid-19 symptoms
- keep as far apart from other pupils as possible
- keep at least 2m away from staff where possible
- use tissues when sneezing or coughing and dispose of in bins
- only use designated toilet areas one at a time and wash their hands after use thoroughly (at least 20 seconds) after use
- only use their own equipment, not interfering or touching any others resources or equipment
- only use their own water bottles and eat/drink their own food. No sharing is allowed

Consequences

In the unfortunate event of misbehaviour, pupils will be given clear, explicit warnings and reminders of appropriate choices. If, following this, behaviours do not improve, the sanctions within the school's behaviour policy, up to and including exclusion, will be applied.

In the event that there are incidents which pose a persistent risk to pupils and staff, parents will be contacted, and pupils collected from school to ensure the safety of themselves and others.

If any adverse behaviours take place that could affect the health or safety of other pupils or staff, then a risk assessment may be completed to review the safety of that child in school during the pandemic restrictions. (e.g. spitting, physical attacks, refusal to comply with health and safety/ social distancing requirements that could heighten the risk of harm to others or make them unnecessarily anxious).

Mr J Ricketts, Senior Deputy and Deputy Head (Pastoral)
